UCI has partnered with BetterManager to provide UCI leaders access to International Coaching Federation (ICF) certified coaches who partner with them on their career development journey.

The one-on-one Coaching Program focuses on providing participants with leadership best practices and actionable feedback for their unique needs through a series of live coaching sessions. The coaches ask powerful questions, brainstorm, and offer valuable ideas to help the participants achieve their goals and aspirations.

This program is ideal for a leader who has previously completed UCI’s Leadership Success Program (formerly Leadership Development Program) or other UC-offered manager development program.
